

About Payment Terms

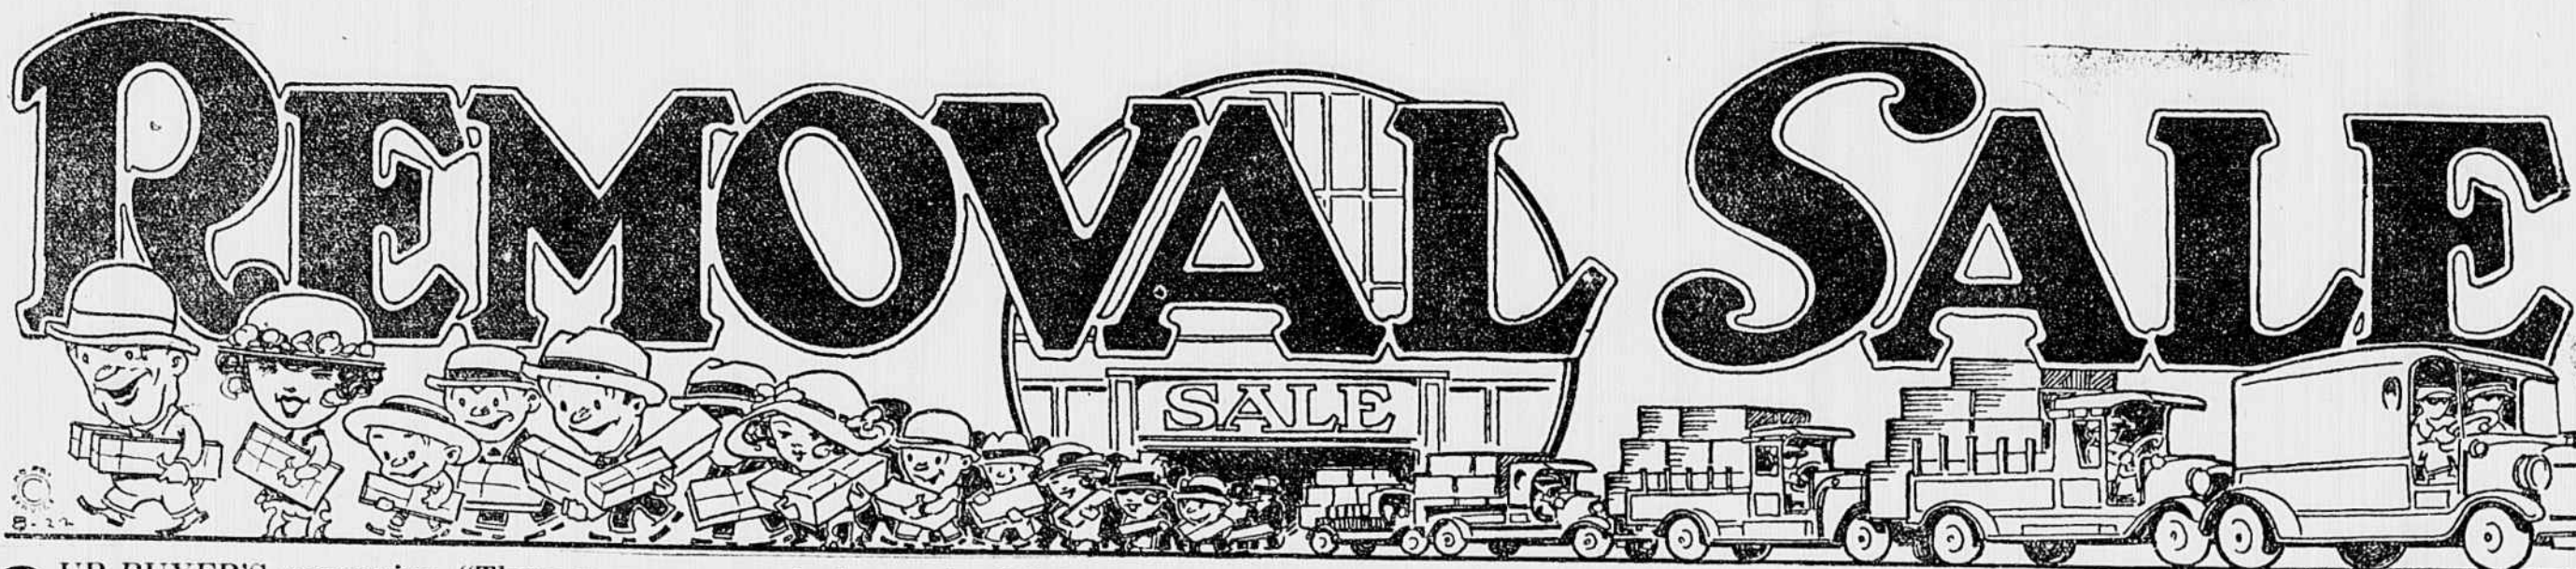

During our Warehouse Removal Sale prices are considerably reduced. The reductions are strictly bona fide and means an actual saving of many dollars to furniture buyers. The terms of payment, however, are just as liberal as heretofore. Our Club Plan provides you with the best means of buying dependable furnishings on the easiest plan of convenient terms. Take advantage of it!

About Free Storage

In order to vacate our present warehouse on Pulliam Street at the expiration of our already extended term, we cannot hold any purchases made during this sale for delivery later than September 15, 1922. We might add that our now prevailing reduced prices mean more than just an ordinary saving, and home furnishers would profit considerably by taking advantage of this opportunity.

WAREHOUSE

OUR BUYER'S expression, "Three moves are as bad as a fire," holds true in our case. Early in January we were notified that the School Board desired possession of our present warehouse site on May 1st. Having a vast amount of goods stored in this building, and being unable to immediately secure suitable quarters, we decided on the next best course of moving this tremendous stock. Prices were lowered to an appreciable extent and much goods were disposed of. Our great Annual August Sale, with still greater reductions, helped further to considerably cut down our big stocks, and, having secured a fine, brand-new brick warehouse (part of which is now under construction) on South Foushee and West Cary Streets, which will be available for occupancy about September 15th, 1922, why, everything looked lovely for our Furniture Buyer, and apparently his troubles were at an end.

BUT, ALAS! nature plays funny pranks and the railroad situation looms up. Factories who hold large contracts for new Furniture purchases are confronted with the transportation problem, and shipments intended for later Fall delivery have been coming in at a terrific rate. We are actually deluged with goods—carload after carload have arrived in rapid succession, and with the School Board hot on his heels for immediate possession of our present site, his troubles have commenced a-new. In order to relieve this condition as quickly as this occasion demands, our Buyer has launched a sale of very gigantic proportion. The values offered are positively phenomenal. The sale will no doubt meet with instant approval—it is an event well worthy of every householder's attention. Take the hint of one who knows.
